MANAGEMENT DISCUSSION AND ANALYSIS REPORT

Global Economy

The global economy is still struggling to gain momentum as many high-income countries continue to grapple with the legacies of the global financial crisis and emerging economies are less dynamic than in the past. After rising marginally in 2014, to 2.6 percent, world GDP will grow by an estimated 3.0 percent in 2015 and 3.3 percent in 2016, supported by gradual recovery in high-income countries, low oil prices, and receding domestic headwinds in developing countries.

Developing economies are expected to see an increase in growth from 4.4 percent in 2014 to 4.8 percent and 5.3 percent in 2015 and 2016, respectively.¹

Indian Economy

In 2014, the geopolitical events and a slow recovery from the previous economic slowdown countered some of the optimism that was felt towards the end of 2014. The Central Statistics Office (CSO) has recently undertaken a revision in National Accounts aggregates by shifting to the new base of 2011-12 from earlier base of 2004-05. According to the data released by the Central Statistics Office (CSO), the Indian economy grew at 7.3 per cent in 2014-15 as compared to 6.9 percent in 2013-14 calculated as per the new series of national accounts with base year of 2011-12, which indicates a marginal growth of 0.4 percent in the Financial Year 2014-15 due to improvement in performance of both manufacturing and service sectors².

The Gross Value Added (GVA), a new concept introduced by CSO to measure the economic activity, rose by 7.2 per cent in 2014-15 compared to 6.6 per cent in the previous fiscal².

The manufacturing sector GVA rose by 7.1 per cent during the year as against 5.3 per cent in 2013-14. Similarly, the output of electricity, gas, water supply and other utility services rose by 7.9 per cent as against 4.8 per cent a year ago. The construction activity too registered an increase of 4.8 per cent, up from 2.5 per cent a year ago. Financial, real estate and professional services also showed an improvement by registering a growth of 11.5 per cent as against 7.9 per cent in previous fiscal².

Strengths

- **Established Track Record:** Rollatainers is one of the pioneers of the Indian packaging industry with strong brand equity. With over 40 years of track record of success, the Company is highly regarded amongst both its customers and peers. It is also one of the few publicly listed companies in the packaging industry.
- **Diversified Products:** Rollatainers is one of the very few packaging companies present in paper board based packaging, flexible packaging and also packaging machinery. This makes it a one stop shop for the FMCG industry and other users of packaging. This also allows the Company to provide integrated and customized packaging solutions.
- **Reputed Customer Base:** Rollatainers caters to the packaging needs of leading FMCG companies such as Hindustan Unilever, Britannia, Nestle, Tata Global Beverages, Conagra Foods and Amul, amongst others. These customers have shown tremendous confidence in the Company over the years.
- **Focus on Innovation:** Rollatainers has a strong track record of new product development. The ability to integrate materials and machines is a strength which enables the Company to deliver new and innovative products which are customized to users' requirements. Over the years, Rollatainers has won reward and recognition for its focus on innovation.

- Experienced Management Team: The core strength of the Company is a strong and experienced senior management team. The management has a successful track record of delivering quality products with focus on innovation.

THREATS AND CHALLENGES

- Fragmented Structure: One of the key challenges hindering the growth of this industry is its highly fragmented nature. The numerous vendors present in the market compete with each other on pricing and sustainability, to increase their market share at the cost of overall industry profitability.
- Lack of Negotiating Power: The industry also suffers from a vast buyer and supplier community which substantially weakens the power to negotiate.
- Low Entry Barriers: Weak barriers to entry lead to companies with much lower investments and infrastructure quality competing with bigger companies in the industry. This limits the ability to charge a premium even for higher quality products.
- Unorganised Sector: Although efforts are being undertaken by the Indian Government and industry associations to bring the unorganised sector under the purview of industry, the unorganised sector still constitutes a significant portion of the total revenues of the industry. It is expected that growing awareness for hygiene and health consciousness will support the growth of the organised sector. The Company has undertaken various initiatives such as working towards greater efficiency, better quality products and product innovation to mitigate the risks.
- Regulatory Changes: The industry is vulnerable to changes in laws relating to environment, waste disposal and food & product safety. These changes can lead to a need for upgradation of technology, increase in product costs, loss of markets and discontinuation of product lines.

OPPORTUNITIES

- Socio-economic Factors: The demand for packaging is expected to grow primarily on account of rising personal disposable incomes and a changing demographic profile, tastes and preferences of the consumer. The change in preferences and aspirations for better quality products have resulted in emergence of convenience and retail stores. All these factors are expected to result in increased demand for packaging.
- Need for Convenient and Eco-friendly Packaging: Amidst growing global environmental concerns and the dire need to arrest the increase in pollution levels, the demand for sustainable and eco-friendly packaging has increased. One of the main beneficiaries of this trend is the 'convenience packaging' industry. Consumers are increasingly looking for products which are easy to open, consume, store, carry, and dispose of, which has led to an increase in the demand for flexible packaging as it is convenient to use.
- The Boom in E-commerce Industry: Over the last couple of years, the online shopping industry has witnessed significant growth. Consumers, lured by discounts and the convenience of shopping from home, have started to order not just white goods but also everyday items online. This has led to an increase in demand for packaging, especially lined cartons which the Company manufactures in large numbers. The Company also has substantial capacity to manufacture lined cartons.
- FMCG Sector: India ranks among one of the top producers of food, vegetables and fruits. The introduction of FDI in the retail sector is expected to continue to provide significant growth opportunity to the Indian retail market. Growth in consumer spend, growing rural demand, changing demographics, emergence of a fast growing market for convenience goods, retail trade and quest for quality products is expected to result in increase in demand for packaging in the medium to long term.
- Low Rural Penetration: The current demand for packaged products is still primarily driven by the urban population. The rural population is gradually realizing the importance of packaged products in terms of hygiene and quality (particularly food items) due to increased social awareness in these areas. As a result, the FMCG companies have started to launch smaller and lower sized versions of their products for the rural areas. This has offered a new avenue of growth for the packaging industry.

- The 'Make in India' Campaign: The 'Make in India' campaign launched by the new government is expected to give a major impetus to the manufacturing industry which is likely to boost the demand for packaging in India.

Rollatainers is well placed to capitalize on the opportunities arising from these trends. The Company has invested in significant capacity expansions, especially in the flexible packaging segment to be able to take advantage of the growth in the FMCG industry and increasing rural penetration. The Company has certifications such as FSC COC which is testament to our focus on sustainability and environment protection. The SEDEX certification is a symbol of our reliance on ethics in business. We are also undergoing the BRC IOP certification which relates to food safety for global markets including Europe. These certifications not only help us bid for orders from large multinational firms but also reinforce our commitment to excellence.

Outlook

According to the Packaging Industry Association of India (PIAI), packaging in India is one of the fastest growing sectors, partly because it spans almost every industry segment. Right from packaging of food and beverages, drugs and medicines, to highly dangerous products, packaging has led to greater specialization and sophistication over a period of years.

Packaging has an annual global turnover of about \$550 billion, and India's share is about \$16.5 billion per annum. According to the Mckinsey report, there will be a ten-fold increase in India's middle class population by 2025, which will further trigger the consumption of packaging materials and will bring another growth spurt to packaging. (packworld.com)

Further, Smithers Pira forecasts annual growth of 4% per year to 2018 in the world packaging market, with sales to reach over 1 trillion US dollars by 2018.

According to the World packaging Organization, the packaging industry is now required to review the social significance of packaging for development and improvement in harmony with society.(world packaging organization) Sustainability programmes are increasingly being seen as a source of innovation that can help in differentiating a company by appealing to the consciences of consumers. These programmes also serve as a platform for new product and market development. Consumer demand and government legislation around the world are the leading drivers for the sustainable packaging agenda. Environmental awareness among a growing population of consumers is fuelling demand for sustainability and the reduction of the impact of packaging on the environment. (Smithers pira.com)
